#12614 – Book Launch and Reception for ‘The power of maps: Bringing the third dimension to the negotiation table’, a CTA Success Stories publication on participatory GIS practice

**Friday, 2 September 2016, 19:30-21:00
Room 314-UNDP Kauhale**

Abstract

This session will see the launch of a collection of 12 impact stories about participatory 3-dimensional modelling (P3DM) – an innovative process that maps traditional knowledge as physical three-dimensional models. P3DM enables marginalised communities to present their territory – together with their own valuable knowledge – in a physical and visual form, offering an opportunity to monitor precious resources against outside threats and preserve them for future generations. It helps to foster sustainable natural resource management, gives a voice to grassroots communities and helps them to influence policy-making and make informed decisions on climate change adaptation. The Power of Maps:

Bringing the third dimension to the negotiation table is published by the Technical Centre for Agricultural and Rural Cooperation (CTA), which has been in the forefront of activities to promote the practice across African, Caribbean and Pacific (ACP) countries.

Speakers include those who narrated stories captured in the book and others who have been practicing P3DM across several continents and for diverse purposes.

Objectives

1. To launch a new CTA publication which is part of the ‘Success stories’ series
2. To demonstrate the value of participatory mapping in three dimensions and its impact on identity building, informed spatial planning and community engagement
3. To discuss how best to further upscale the deployment of the process in community-based initiatives

Format and Programme

The general format of the workshop will be as follows (**total time: 90 min**):

1. Reception with bartender – Snacks and drinks will be available to the audience (starting at 19:30)
2. Opening, introduction of speakers and key questions to be addressed (5 minutes)
3. Video address by CTA (3 min)
4. First set of two presentations (7-10 minutes each) (20 minutes)
5. Questions and answers, followed by discussion related to the first set of presentations (15 minutes)
6. Second set of two presentations (7-10 minutes each) (20 minutes)
7. Questions and answers, followed by discussion related to the second set of presentations and for general discussion as well. (15 minutes)
8. Closing comments (5 min)

Time	Activity	Speakers
19:30 - onwards	Reception – snacks and drinks	
19:35-19:40	Opening, introduction of speakers and key questions to be addressed	Dialogue moderator: Hindou Ibrahim, IPACC West Africa Coordinator
19:40-19:45	Video address and introduction of the publication (video)	Giacomo Rambaldi, CTA Senior programme coordinator
19:45-20:05	First set of two presentations:	Senoveva Mauli, Solomon Islands Community Conservation Partnership (SICCP) Ana Fekau, Min of Environment in Tonga
20:05-20:20	Q&A and discussion (on first set of presentations)	Dialogue moderator and speakers
20:20-20:40	Second set of two presentations	Nigel Crawhall, IPACC, South Africa M’Lis Flynn, Wet Tropics Management Authority (on private capacity), Australia
20:40-20:55	Q&A and discussion (on second set of questions). Time allowed for general discussion as well.	Dialogue moderator and speakers
20:55-21:00	Closing comments and distribution of copies of the publication to participants	Nigel Crawhall, IPACC, South Africa
